PERSONAL INFORMATION

Date of Birth: January 04, 1971
Place of Birth: St. Cloud, Minnesota
Citizenship: USA
Marital Status: Dallas W. Morgan CJF, Dip.WCF

BIOGRAPHY

I was born into an active animal loving family in central Minnesota. I showed horses and dogs in both 4-H and open arenas. As a member of the MN High School Rodeo Association for 4 years, I competed in Team Roping (header), Break-a-way Roping, Goat Tying, Barrel Racing, Pole Bending and Cutting. I was also the MN High School Rodeo Queen.

I attended Horseshoeing School after high school. I had been trimming my own ponies since I was 13. For me; it was an essential and logical step in the education of an equine practitioner. It was there I met my husband of 18 years, Dallas. We have no children, except a Jack Russell terrier.

I completed my Bachelor of Science degree in Animal Science and Industry at Kansas State University. True to form I was the KSU women's Rodeo team captain, a scholarship Goat Tier and Miss Rodeo K-State. I graduated from Kansas State University's College of Veterinary Medicine in 1997.

An internship in Equine Medicine and Surgery at a private equine practice led me to Southern California. There, I acquired a Dressage horse and a completely new style of riding. I remained in California, operating a solo equine ambulatory practice for six years. Needing a change of pace and a peaceful place to call home, Dallas and I built Morgan Equine Veterinary and Farrier Hospital in the Finger Lakes region of New York. I have dabbled in fox hunting, hunter paces, polo and many hours of fabulous trail riding.

In an effort to get back to some sort of horse competition, I purchased a 9 year old Dutch warm blood mare. In 2008 and 2009, she and I spent time with Phillip Dutton at both the summer and fall Eventing camps. Currently, I have a new Thoroughbred Gelding who I have been actively competing in the novice division this summer.

My continuing education efforts have led me to complete specialty veterinary acupuncture, chiropractic and dentistry courses. I am currently attending the

International Society of Equine Locomotor Pathology continuing education series and have sat for examination under Jean-Marie Denoix.

I enjoy being an Equine Veterinarian. I like to do dentistry and I like to work up lamenesses. I have trained myself to take the time necessary to go through the stepwise processes of investigation, blocking, imaging and treatments. It's important to me to have a specific answer with a good therapeutic plan for each individual.

My hobbies include acrylic painting, playing the piano, gardening and travel. This winter, I would like to learn to speak French. Ballroom and swing dancing is a favorite pastime and Dallas and I never miss a chance to get on the floor.

Dallas and I have been on several wonderful world traveling experiences. We have visited Australia, Brazil, Canada, Costa Rica, England, Fiji, Honduras, India, Mexico and many islands of the Caribbean. We have a lovely trip to Australia and New Zealand planned for January 2011. I am interested in traveling for humanitarian/equitarian efforts as they have been the most memorable and rewarding travel experiences.

PROFESSIONAL EDUCATION

1993 Kansas State University, Manhattan Kansas
Bachelor of Science in Agriculture, Animal sciences and Industry
1997 Kansas State University College of Veterinary Medicine, Manhattan KS
Doctor of Veterinary Medicine

CERTIFICATE EDUCATION

1991 Oklahoma Horseshoeing School, Oklahoma City Oklahoma
Advanced Certification in Horseshoeing and Blacksmithing
1999 International Veterinary Acupuncture Society, Houston Texas
2000 American Veterinary Chiropractic Association, Moline Illinois

STUDENT EXTERNSHIPS

January 1997 San Luis Rey Equine Clinic Inc. Bonsal CA
February 1997 Littleton Large Animal Clinic, Littleton CO
March 1997 Alamo Pintado Equine Medical Center, Los Olivos CA

EMPLOYMENT HISTORY

1997 Equine Veterinary Associates, Yorba Linda California
Medicine, surgical and ambulatory Internship

1998-2002 Morgan Equine Veterinary Service, Corona California
Orange, Riverside and Los Angeles county ambulatory service

2002- Present Morgan Equine Veterinary and Farrier Hospital, Locke NY
A full service veterinary hospital primarily focused on lameness diagnostics
and therapeutics
