WELCOME TO THE 5TH WORLD EQUINE AIRWAY SYMPOSIUM!

The aim of the WEAS is to improve equine respiratory health through the exchange of cutting edge scientifically-based information

The **World Equine Airway Symposium, WEAS**, is held every 4 years: This 5th WEAS will be in the vibrant city of Calgary, Alberta, Canada, in July 2013, on the day following the world famous Calgary Exhibition and Stampede!

The WEAS will also host the Veterinary Comparative Respiratory Society (VCRS) meeting, which will provide small animal as well as human and comparative respiratory sessions.

Internationally recognized researchers in human and veterinary medicine are participating and providing state-of-the-art information on upper and lower airway pathologies.

The sessions will address diagnostics, treatment and management of upper and lower airway inflammatory and infectious pathologies in horses. The interaction of scientists, clinicians, practitioners and students will foster collaborations

and enable direct applications of innovative advances to the diagnosis and management of equine respiratory tract disorders.

The program covers the latest diagnostic and treatment updates in regenerative medicine, airway surgery, exercise induced pulmonary hemorrhage, immunology, virology and infectious diseases of the upper and lower respiratory tract.

WEAS and VCRS 2013 JULY 15-17

Program Registration Information:

Program: Research
Sessions, Posters (WEAS &
VCRS), Practitioners and
Wet Labs

this date are subject to
availability.***

About Calgary

Calgary is a vibrant,
multicultural city near the
Rocky Mountains, Banff
National Park and Lake
Louise.

The WEAS will start right
after the Calgary
Stampede and Spruce
Meadows Pan American

Tournament. The famous
Calgary Stampede is the
“Best outdoor show on
Earth!” with incredible
rodeos and western
action.
